one of the most significant events in european politics the past two decades is the emergence of radical right wing parties mobilizing against immigration and multiethnic societies such parties have established themselves in a large number of countries often with voter shares exceeding ten and sometimes even twenty percent many of these parties exert a real influence on the policy within respective country the emergence of the recent wave of radical right wing party politics has generated a large and growing literature spanning a variety of dimensions such as ideology voting and policy impact this volume will cover all these dimensions but it will in particular focus on two questions why is it that the working class tends to be especially attracted by the radical right wing parties and what does the radical right wing parties growing electoral successes mean for social democracy and the traditional left in europe which are meeting growing competition from the radical right over working class voters bringing together the leading scholars within this field this book makes a unique contribution by focusing on the relationship between class politics and the radical right

this book examines the various minorities living in the island of cyprus from the early modern late venetian and early ottoman period down to the present day it charts their history with special emphasis on their relations with the powers ruling cyprus and with the two dominant christian greek and muslim turkish communities the theme running through the book is that despite being significant members of cyprus society the three historical minorities maronites armenians and latins were only included in society to a certain extent by the two major communities this was formalised in the post independence 1960 period when they were compelled to become members of either dominant community and thus they suffered internal exclusion by being regarded as religious sub groups of one of the two dominant communities rather than national minorities in their own right within this general context the social legal and political roles customs culture and language of the various minorities are examined as they evolved through time and in response to internal and external developments affecting cyprus in the political economic and global spheres they are discussed not as static entities but as evolving groups that have adapted with greater or lesser degrees of success to the radical and at times painful changes cyprus has undergone especially over the last 150 years in all walks of life finally the question of what the future holds for the minorities of the island in the light of cyprus eu membership and the prospect of reunification are also analysed this book is a product of the conference minorities of

cyprus past present and future which was held on 24 and 25 november 2007 at the european university cyprus
